Attributes of Excellence in Arts for Change

## EMOTIONAL EXPERIENCE

***Arts for Change facilitates a productive movement between "heart space"—the emotional experience that art evokes—and the "head space" of civic or social issues***

### **Consider:**

---

How do emotional responses evoked or provoked by the work advance its social intent?

Is a responsible approach taken to help people process or cope with the potential emotional responses that the creative work make evoke?

Did participants' emotional response move them to heightened awareness or to engage in dialogue or action?

Did the work provoke emotional responses that are in opposition to the intended change (e.g., alienation or resistance)?
