AESTHETIC PERSPECTIVES

Attributes of Excellence in Arts for Change

Imaginative use of available resources drives artistic innovation and demonstrates responsible social and environmental practice

Consider:

How does the use of resources engage the audience's imagination and enhance their participation?

To what extent is the use of resources--human, social, financial, and physical--aligned with the artists' commitment to social justice and change?

How does the work demonstrate creativity in maximizing the possibilities of the resources available?

Aesthetic Perspectives includes 11 attributes that address the potency of creative expression to embody and motivate change. Developed by artists and allied funders and evaluators in partnership with the Nathan Cummings Foundation, the Arts x Culture x Social Justice Network with support from the Hemera Foundation.
